Our camera systems pass 1,000Pa negative pressure waterproofing tests

We ensure that 100% of our
cameras are IP69K-rated

- 9" quad-display camera system (SP-937)
- OSD menu • 2400 x 480 resolution
 - Displays up to 4 views simultaneously
 - Backlight with 400 cd/m² brightness
 - Operating temperature: -20 to 70°C

NEW

Quality you'll appreciate

When it comes to our vehicle rearview camera systems and other products, we have zero tolerance for subpar quality. That's why each device uses industrial grade raw materials and components from Japan and the US, and all of our items are subjected to 17 reliability examinations including 1,000Pa negative pressure waterproofing, load dump, ESD, durability, electrostatic discharge and 5G-shock vibration tests. For your added assurance, all our systems are RoHS Directive-compliant and CE-, FCC-, E-mark-, SAE J2012- and JASO D001-94-certified. Plus, where many competitors conduct waterproof testing on a small sample of their products after assembly is completed, we test each and every camera during production, so you can truly rely on our IP69K-rated units.

10 years' R&D experience behind our devices

Our 10 engineers utilize their average of 10 years of R&D expertise to create at least two new IR CCD cameras and monitors for rearview systems each month. To ensure our design team has the resources to keep up with the latest industry advancements, we allocate 30 percent of our annual sales to this department. This investment has led to the creation of some of our most popular items, like rearview systems featured here. What's more, we offer 3D mold design, and we can dispatch your custom samples within 30 days.

Initial orders for just 10 units

Although we turn out up to 30,000 monitors and 40,000 cameras monthly at our 50,000m² ISO 9001:2000-certified factory, we will gladly welcome orders for just 10 pieces. For more information, contact our English-speaking sales staff today.

- 7" digital wireless rearview monitor (SP-7088M)
- 7" TFT LCD monitor shaped like a rearview mirror
 - Built-in 2.4GHz digital wireless receiver
 - Up to 80 overlapping hopping channels

- 7" waterproof monitor (SP-756)
- IP69K-rated; for agricultural machinery
 - 5-pulse load dump tested
 - 400 cd/m² brightness

- Digital wireless camera monitoring system (DF-766M2362)
- Built-in 2-ch. 2.4GHz digital wireless receiver
 - Digital wireless camera with aluminum housing
 - IP69K-rated

- 7" TFT LCD monitor (SP-763)
- OSD menu
 - 2400 x 480 resolution
 - Backlight with 400 cd/m² brightness
 - Operating temperature: -20 to 70°C

- 7" waterproof quad-display camera system (DF-759)
- IP69K-rated
 - Touch-button control
 - Automotive digital video processor
 - Operating temperature: -40 to 80°C
 - Can withstand 10G vibration
 - Aluminum housing

- 7" touch-screen monitor (SP-722)
- Components from Techwell
 - OSD menu
 - 800RGB x 480 resolution
 - Backlight with 400 cd/m² brightness
 - Auto-adjusting brightness level

Advanced fire protection systems with CE, LPCB, EN 54 and UL certifications

A selection of our fire protection systems

Meeting the safety regulations of major markets

With 32 years of experience as a manufacturer, we know what it takes to deliver you reliable smoke, heat, gas and flame detectors. We put our products through extensive burn-in tests, supervised by experienced engineers and technicians. And with CE, LPCB, EN 54 and UL certifications, these items also meet the safety regulations of major markets – streamlining the importing process and taking the hassle out of international sourcing.

Our latest analogue fire alarm control panel

Our featured product is a good example of the advanced safety equipment we produce. This fire alarm master-control module can connect up to 2,000 addressable devices. It also complies with EN 54 Part 2 and Part 4. Plus, it's available in four-, eight- and 32-zone models, so no matter whether your customers want to protect large or small areas, you'll have something to offer them. For more information, visit us online at www.horinglih.com today.

Global Sources supplier rankings

★★★★★

Suppliers are ranked using a 6-star ranking system. Companies with a higher star ranking provide more business information and verification reports on their Global Sources online homepages. Suppliers rated 5 or 6 stars have a Credit Check report from First Advantage or Sino-Trust and a Supplier Capability Assessment report provided by Bureau Veritas online. The rankings are correct at the time of publication and may be subject to change.

NOTE TO READERS: All prices quoted in this magazine are in US dollars, unless otherwise specified. FOB prices were provided by the companies interviewed only as reference prices at the time of the interview and may have changed. Readers seeking firm quotes on products mentioned in this magazine should contact the manufacturers/traders directly. All product images are provided by the companies interviewed and are for reference purposes only. Those product images featuring products with trademarks, brand names or logos are not intended for sale. Products that are not the specific topics of editorial articles are shown for illustrative and/or demonstrative purposes only. We, our affiliates, and our affiliates' respective directors, officers, employees, representatives, agents or contractors do not accept and will not have any responsibility or liability for product images (or any part thereof) which infringe on any intellectual property or other rights of a third party.

IP/3G/PSTN security solutions with automated wireless control and remote access

Versatile, intelligent and flexible, our IP/GPRS/GSM residential security system offers the latest total visual monitoring solution, home automation and remote access features that make users’ lives safe, simple and manageable.

Our innovative ML-series control panels keep a close watch on users’ homes at all times. Services such as security monitoring, event and alarm reporting, visual monitoring, home automation, energy management and remote control are integrated into the 40-zone ML-series panel. Through the Home Portal Server connection, the devices can be operated via web browsers or our Vesta Home app on smartphones. Users can incorporate IP camera for video streaming to remotely monitor household environment, PIR cameras to capture video clips and colored images of alarm scenes. What’s more, the power metering switch and dimmer offer Smart Home Control capability to assist in home appliance management and conserve electricity.

Established in 1985, Climax Technology is a leading supplier of wireless security alarms, smart home solutions and visual verification systems. With a sales branch in the US, we provide fast service and language-specific support to customers in North America. Contact us today to source a broad range of security products.

Use third-party verified tools for more confidence and peace of mind when finding suppliers!

When top buyers like you source online, you want to know whether suppliers:

- Are trustworthy, reliable and financially stable*
- Can meet your specific requirements for product manufacturing and delivery*
- Have potential to be long-term trading partners*

Global Sources has partnered with independent third-parties to provide you with tools that verify suppliers and help you make better sourcing decisions.

Credit Check:

- Confirms a supplier’s status as a legally registered business
- Together with Verified Business Registration Details, Credit Check assures transparent and authentic information online
- All facts and figures are gathered from government agencies by Dun & Bradstreet (D & B) and Sinotrust — two of World’s most trusted business credit reporting providers

Supplier Capability Assessment:

- Confirms details about a supplier’s operations, production capabilities, QC processes and management through factory tours, management interviews and documentation reviews
- Offered through TÜV SÜD and Bureau Veritas, the world’s leading conformity assessment and certification services providers
- Plus, request your custom company and product inspections

We know you want to source from suppliers that have been verified by third-parties, and we have made it easier for you to find them. Visit GlobalSources.com to learn more today.

Partnership

“ When we started out as a small company, we chose to advertise on the back cover of a Global Sources trade magazine. Many doubted us at the time, but we saw the potential for a long-lasting relationship. And over the years, Global Sources has tackled every challenge and consistently enhanced its specialized B2B marketing services. Their support has helped us achieve constant growth, even in the most difficult times. ”

Louis Liao
Chief Executive Officer,
Excel Cell Electronic Co. Ltd

CCTV cameras

Online metrics are taken from buyer and supplier activity in the featured product group on www.globalsources.com in the month preceding publication of this magazine.

- **Buyer requests** track total inquiries from our independently verified worldwide community of more than 1 million buyers.
- **Product profiles** represent the total number of unique products available from export-ready suppliers in our easily searchable catalogs.
- **New product postings** indicate the number of new product profiles added to our website by suppliers during the period.

For these and thousands of other categories, visit Global Sources online and sign up for Product Alerts to receive the latest supplier postings. Use the website’s Product Search function to find hundreds of products and send inquiries directly to verified exporters.

Vandal-proof varifocal dome camera (YD-ZD048S)
• Effio-V chip • 800 TVL resolution
• 2.8-12mm zoom lens
• 0.01 lux minimum illumination
• 3-axis Gimbal bracket

High-resolution waterproof IR camera (YD-N032S)
• Effio-V chip
• 800 TVL resolution

Security items trusted by more than 1,000 overseas clients

- Various metal detectors, X-ray baggage screening equipment, foreign body detectors and other security products
- 10 engineers release 2 new products monthly
- OEM/ODM services available

Walk-through metal detector
• High sensitivity for magnetic and non-magnetic metals and alloys
• 6 detection zones with adjustable detection settings
• High-brightness color LCD
• Password protection and tallying functions
• Safe for pacemaker wearers, pregnant women and magnetic media

Product Index

This index will help you quickly find the products you are looking for. On the PDF version of this magazine, enter a page number in the top bar of your PDF Reader to go directly to that ad page. Return to this page anytime by clicking on Product Index at the top of each page.

Source smarter with Star Ranking

- Global Sources’ six-star ranking system helps you find the suppliers that match your needs
- Companies with more stars are generally larger and more experienced exporters
- Companies with more stars have paid more to get more exposure, and to provide you with more information to evaluate their capabilities
- Looking for large, well-established suppliers? Contact 4, 5 and 6-star suppliers

Interoperable access control systems from a 25-year manufacturing expert

All-Stainless Steel Proximity Access Controls
ST-280/260

- SUS 304 stainless steel housing and button pad
- Stand-alone or network options
- 4,500-user identification capacity
- Rust-resistant, waterproof design

All-Stainless Steel Proximity Access Controls
ST-226/228

- SUS 304 stainless steel panel and button pad
- Stand-alone type
- 1,000-user identification capacity
- Mortise and waterproof design

- Offering easy-to-install and seamlessly integrated security solutions
- We offer over 2 dozen different interoperable models to select from
- Fingerprint ID pads, electronic locks, IR touchless sensors and more
- The interoperability of our Soca-brand range offers 1-stop sourcing
- Order with confidence as all products come with 1-year guarantees
- Customers will benefit from lead times of only 15 days or less
